

Shinko BAZAN (波山慎子)

Software Engineer

bazanshinn@gmail.com <https://www.linkedin.com/in/cintabazan/> Student Visa with work permission

After graduating from a 2 year Web Development Degree in my home country, Spain, I moved to Japan in April 2022 to improve my Japanese in order to enter University in Japan. My love for the Japanese language and software development led me to pursue a bachelor's degree in Computer Science at a university in Japan, focusing on NLP in ideogram-based languages.

EXPERIENCE

Build@Mercari Trainee

Tokyo, Japan May 2023

Mercari

- Participated in an internal hackathon, developing a web app replicating Mercari's interface with item search, listing, and detail functionalities..
